I understand that Reiki, Shamanic, or any other type of energy healing work is offered to compliment medical and psychological advice and treatments. Gayle Revels does not diagnose conditions, nor prescribe substances or perform medical treatment, nor interfere with the treatment of a licensed medical professional, and is not licensed by the State of California. I further understand that any treatments received from Energy Healing with Spirits is not to be construed as a substitute for medical examination, diagnosis, or treatment. It is recommended that I see a licensed physician, or licensed health care professional for any physical or psychological ailment I may have. I understand that Gayle Revels is not a licensed physician and energy healing treatments are not licensed by the state of California but are complementary to healing arts services licensed by the state. I also understand that energy healing methodologies may involve the laying on of hands to heal. I understand that I will be fully clothed during the session, and experience a series of "safe touch" (no touching of breasts, buttocks, or genitals) hand positions on and above my body.
